SUMMARY

React Frontend Developer with 3.9 years of experience building scalable enterprise web applications using React.js, JavaScript (ES6+), Redux Toolkit, Tailwind CSS, Material UI, and REST APIs. Experienced in developing reusable UI components, optimizing application performance, collaborating with cross-functional teams, and delivering production-ready solutions. Skilled in leveraging AI-assisted development tools such as ChatGPT and Cursor IDE to accelerate debugging, code optimization, refactoring, and development productivity.

SKILLS

Frontend

- React Hooks
- JavaScript (ES6+)
- HTML5
- CSS3
- Tailwind CSS
- Material UI
- TypeScript

State Management

- Redux
- Redux Toolkit
- Context API
- Redux Persist

Backend

- Node Js
- REST APIs
- MongoDB

Tools

- Git
- JIRA

AI Assisted Development

- Leveraged **ChatGPT** for debugging, code optimization, refactoring, and technical problem-solving.
- Used **Cursor IDE AI** for intelligent code completion, code navigation, and productivity improvements.

EDUCATION

Bachelor's degree (B. TECH)

GKM COLLEGE OF ENGINEERING AND TECHNOLOGY, **2015- 2019**

EXPERIENCE

Software Engineer

Solverminds Solution and Technologies Pvt Ltd | Chennai, India
October 2022 – present.

- Developed and maintained enterprise-scale React.js applications serving business-critical maritime solutions.
- Designed and implemented **reusable React components**, improving UI consistency and reducing development effort across multiple projects.
- Integrated RESTful APIs using **Axios** and **Fetch API**, enabling seamless communication between frontend and backend services
- Implemented centralized application state management using **Redux Toolkit**, improving maintainability and reducing state-related bugs.
- Optimized application performance using **React.memo, lazy loading, code splitting and React Optimization hooks**
- Identified and resolved **production defects**, improving application stability and reducing customer-reported issues
- Improved application performance by **analyzing memory usage and component render times using React Profiler**, reducing unnecessary re-renders and improving UI responsiveness.
- Followed clean coding standards, Git workflow, and best development practices.

AWARDS

Rising Star Award

Solverminds Solution and Technologies 2024

CERTIFICATIONS

Anthropic AI Certifications on

- Anthropic AI Fundamentals
- Capabilities and Limitations
- Model Context Protocol
- Claude Cowork
- Understanding the EU AI Act

PROJECTS

AI Chatbot Application

Tech Stack: React Js | JavaScript | Flask | Python | Gemini API | REST API | Git | Vercel

- Developed an AI-powered chatbot with React and Flask.
- Integrated LLM APIs for conversational responses.
- Built a responsive, production-ready interface.

Live Demo: <https://ai-simple-chatbot-zeta.vercel.app/>

Cart Project

Tech Stack: React.js | TypeScript | React Context API | Vercel

- Developed a responsive e-commerce shopping cart application
- Implemented product browsing and shopping cart management.
- Used React Context API for efficient global state management.
- Deployed the application on Vercel with GitHub integration.

Live Demo: <https://cart-project-jet.vercel.app/>
