

# SURENDAR NARAYANAN

Software Engineer | React.js Developer | Front-End Developer

Chennai, Tamil Nadu | +91 9176516964 | surendar16cool@gmail.com

LinkedIn: [linkedin.com/in/surendar-narayanan-291589321](https://www.linkedin.com/in/surendar-narayanan-291589321) | Portfolio: [portfolio-snowy-delta-65.vercel.app](https://portfolio-snowy-delta-65.vercel.app)

## PROFESSIONAL SUMMARY

Front-End Developer with 4 years of experience building fast, scalable enterprise web applications using **React.js** and **TypeScript**. Track record of profiling and optimizing application performance, shipping reusable component libraries, raising test coverage and reducing production bugs, working closely with designers, backend engineers, QA and product teams. Strong focus on clean code, testing and user experience.

## TECHNICAL SKILLS

**Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, SASS/SCSS

**Frameworks & Libraries:** React.js, Redux Toolkit, React Query, React Hook Form, Tailwind CSS, Material UI

**Testing:** Jest, React Testing Library

**API Integration:** RESTful APIs, Swagger, Postman, Spring Boot services (integration)

**Tools & Workflow:** Git/GitHub, Azure DevOps, Jira, Webpack, Vite, npm/yarn, Figma, Chrome DevTools, React Profiler

**CI/CD:** GitHub Actions, Azure DevOps Pipelines (automated build, testing and deployment)

**Concepts:** Responsive web design & Mobile-First Design, Cross-Browser Compatibility, Web Performance Optimization, Reusable Component Architecture, State Management

## PROFESSIONAL EXPERIENCE

### Software Engineer

Oct 2022 – Present

Solverminds Solution and Technology, Chennai, India

Full-time

- Developed and maintained an enterprise-scale **React.js** application for business-critical maritime solutions, translating Figma designs into responsive, pixel-accurate, cross-browser-compatible UI.
- Designed and built **20+ reusable React components**, improving UI consistency and reducing development effort across multiple projects.
- Integrated **20+ RESTful APIs** with Spring Boot backend services, validating API contracts and responses with Swagger/Postman and handling data retrieval, validation and display in React.js.
- Migrated legacy JavaScript modules to **TypeScript**, **reducing production UI bugs by 25%** and improving developer onboarding time.
- Built reusable Redux Toolkit slices, actions and selectors to manage shared state and support a scalable component architecture.
- Profiled and optimized React.js performance and memory usage with React Profiler and Chrome DevTools, identifying unnecessary re-renders, runtime bottlenecks and memory-retention issues to improve application stability.
- AI-Assisted Development:** GitHub Copilot, ChatGPT, Cursor | AI-assisted code generation, debugging, refactoring, test generation, code review, documentation
- Resolved **50+ Jira tickets per year**, including production defects, UI issues and enhancements, collaborating with QA, backend and business teams to deliver production-ready fixes.
- Took technical ownership of front-end deliverables, using Azure DevOps for source control, pull requests, code reviews and CI/CD pipelines, and supporting teammates to meet release timelines.

## EDUCATION

### B.Tech in Information Technology

2015 – 2019

GKM College of Engineering and Technology, Chennai | CGPA: 6.9 / 10

## AWARDS

**Supreme Star Award (2026)** – Recognized for technical ownership, consistent quality and supporting team delivery.

**Rising Star Award (2024)** – Recognized for resolving high-priority functional issues and contributing to project stability.

## CERTIFICATIONS

**Anthropic AI Course** (Anthropic) – AI Fundamentals, Model Context Protocol (MCP), Capabilities and Limitations, Claude Cowork, Understanding the EU AI Act.
